Old business:

- How to handle anonymity on virtual meetings. Remind newcomers to use their first name only, especially in their on screen name. Remind members to protect the anonymity of the meeting.

New Business:

- Crosstalk guidelines. How can meetings address crosstalk? CoDA FSM states when a member feels that crosstalk has occurred, they can ask the meeting facilitator to re-read the crosstalk guidelines. Up to each individual meeting.
- CoDA members are capable of recording virtual meetings. Recording in WebEx shows up on everyone's screen. Facilitators could specifically say do not record for any reason. Each meeting decides if they will allow recording.
